HEAVY DUTY - AUSTRALIAN MADE

PLANT TIPPER

DESIGNED SMART, BUILT TOUGH

The MD Plant Trailer is a durable and versatile solution designed for reliable plant and equipment hauling. Its key feature is the innovative C-Section fabricated chassis, made from laser-cut, CNC-folded, high-tensile 350-grade steel, which runs the full length of the trailer. This design allows for flexibility on rough terrain and facilitates easy washdowns, preventing mud, sand, and salt buildup that can lead to corrosion. The trailer is equipped with 3mm flat mudguards, secure spare tyre storage in the drawbar, 65mm square steel with 95mm drop axles, 38 individual tie-down points, and chain slot provisions, all finished with a durable powder coating for long-lasting performance. Built for ease and dependability, the MD Plant Trailer is ready to meet all your hauling needs.
